

Seamlessly Manage ICM Processes, Natively within your CRM

Approximately 10% of a company's revenue is spent on incentive compensation, so maximizing return on this investment is critical – especially as businesses shift to more conscious spending and profitability over growth at all costs. Managing incentive data within the same system your revenue teams use every day, automating manual processes, and unifying incentive and revenue data into consolidated reports provides the flexibility RevOps teams need and accelerates the financial return finance loves.

Xactly for CRM offers that flexibility by unifying incentive and revenue data together, no matter the compensation plan, directly within Salesforce. This enables effortless preparation, adjustment and approval of all compensation data before payouts are made, the ability to stand-up SPIF programs, and arm your go-to-market (GTM) teams with the visibility they need to feel motivated and confident in commissions.

The Value of Xactly for CRM:

Familiar Look and Feel

Manage all incentive data directly within Salesforce, ensuring **faster and easier data management**, utilizing your preferred reporting capabilities that are familiar to your go-to-market teams.

Easy SPIF Management

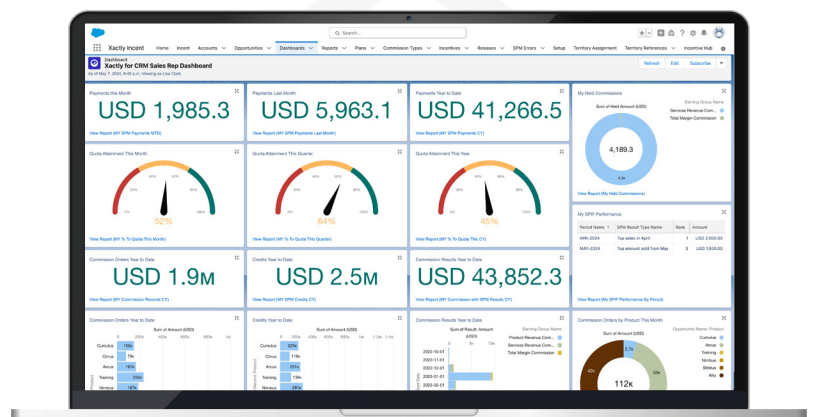

Put the power of motivation in the hands of your sales leaders to **quickly and easily create**, deploy, and manage SPIF programs, with tracking directly in Salesforce.

Accelerate Adoption

Operate within the **same ecosystem** that your go-to-market teams use daily, ensuring ease of access to information, minimize questions and confusion, improving utilization without the need for additional tools or platforms.

Greater Transparency and Control

By centralizing incentive and compensation data, Xactly provides **enhanced transparency and control**, empowering stakeholders with real-time insights into their compensation structures.
